

# PP24LR-480 **PowerPak Series III Commercial Steam Generator**

### **SPECIFICATIONS**

Input Voltage	480VAC, 3-Phase
Kilowatt Rating	24.0KW
Maximum Amperage	29 AMPS
<b>Overcurrent Protection Size</b>	
Water Inlet	3/8" Compression
Steam Outlet	1" NP
Safety Valve	3/4" NP1
Electrical Connection	Hardwired
Room Size (Cubic Feet)	>1000

### **PowerPak Series III Commercial Steam Generator**

## PowerPak Series III Standard Equipment:

- System components come packaged together for convenient ordering
- Pre-installed ¾" NPT Pop Safety Valve
- Fully programmable digital control system
- 7-day programmability: Specific to both time and temperature and optimized for day-to-day individual settings
- Microtouch Remote start controller
- PowerFlush inner tank cleaning system: automated pressurized decalcification system helps eliminate sediment build-up
- Stainless steel split-tank design adds longevity by separating the heating function from water feed function
- Constant steam at a constant rate: no irritating steam lags or bursts

- Superior heating elements: a level of corrosion protection far superior to copper, brass, or stainless
- 18-month parts and labor in-field warranty
- 1" NPT Steam Outlet
- Can be plumbed 50 ft. from the shower without upsizing the generator
- Stainless steel/Brass wetted components
- **Powder Coated Steel Enclosure**
- Temperature sensor with 50 ft. lead wires included

#### **Installation Notes:**

Generator must be installed by a licensed electrician.

Install this generator according to the installation guide supplied. Follow all local plumbing and electrical codes. Unit must be accessible for service and maintenance. Generator is factory sized: L x W x H = Steam Room Cubic Feet =  $\geq$ 1000 Cu. Ft. Choose the appropriate generator.

#### **Product Specification Basics:**

The steam generator unit dimensions are approximately 19"L x 18-1/8"W x 32"H in dimension. The generator is made from powder coated steel / stainless steel and includes: PowerFlush, Split Tank design, and Master controller mounted on generator unit.

#### Shipping Information:

Weight.....120 lbs. Length.....19 in. Width.....18-1/8" in. Height......32 in.
